

This is an innovative program which is unique to our partnership.

This program is part of our plan to develop an organization that every partner is proud of and with opportunities to share in each other's success

121 Temps is committed to the development of the VA industry in Australia. 121 Temps is also committed to helping you, our partner, set up and run a successful business. A major part of running a successful business is the ability to earn a passive income and our Profit Sharing Program is designed to provide you with a passive income stream that also recognizes your support in developing the VA industry.

As a new VA Partner, part of your commitment is to pay \$2.50* per hour of time that a client introduced by us uses your services, for the life of that client.

If, during course of your business, you attract a client or clients that you are not in a position to service and you then refer this client to our VA Placement Program; the client then retains the services of another virtual assistant on our program, we will pay you \$2.50* per hour of time that the client uses the other VA Partner's services, for the life of the client.

THE BENEFITS OF THIS PROGRAM ARE:

You, representing VA Placements, never have to turn a client away—you can explain that one of your partners who is an expert in this area will provide the service to them directly. The client can be confident of the same commitment to our values and level of service.

You have a method of earning passive income for the life of the client.

Your only activity is to send an email advising the details of the client's requirements and their contact details—we do all the rest.

Your passive income will be calculated as part of our process and will be either credited to your account or paid to you at the end of each billing cycle.

HOW WE MANAGE THIS PROGRAM:

We manage this process by the use of our CRM system. You will be given a username and password to access this CRM and we allocate clients to you. You then raise client invoices on this system and the software generates a commission report at the end of each billing cycle. We then bill you for the \$2.50* component of the commission.

Note: If you send us a copy of your logo (120 px w) we will upload it to the system and all invoices you raise will include your own logo. If no logo is received the system defaults to using the VA Placements Approved VA logo.

*(+ 0.25c GST if applicable)
